SUMMARY

Highly motivated IT Services student with extensive preparation in enterprise networking, server administration, virtualization, and IT security. This academic background is supplemented by concrete problem-solving skills and an aptitude for troubleshooting technical matters initially and swiftly. Looking forward to putting such knowledge to practice alongside a willingness to learn new technologies in a collaborative setup for gaining that entry-level IT job.

TECHNICAL SKILLS

- Skilled in adapting to diverse work environments and always eager to learn new material to improve performance in the workplace
- Strong attention to detail and ability to work well under pressure to maintain smooth operations.
- Networking: Enterprise Networking, Security & Automation, Switching & Routing Essentials, and Wireless Networking Fundamentals
- Systems & Virtualization: Advanced Server Administration, Virtualization (Fundamentals & Intermediate), and Cloud Computing.
- IT Security: IT Security Principles (Fundamental & Intermediate) and Network Security.
- Programming & Scripting: Object-Oriented Programming (OOP) and Scripting for automation.
- Hardware & Troubleshooting: Hardware configuration, with skills in troubleshooting and solving technical problems quickly and effectively.
- Enjoys learning new technologies and collaborates effectively with others to find the best solutions.

EXPERIENCE

Tim Hortons / Crew
April 2022-2025

- Demonstrated exceptional customer service in a high-volume, high-speed environment, effectively addressing customer issues and requirements.
- Managed inventory with strong attention to detail to facilitate stock precision and readiness for operations.
- Demonstrated reliability and the ability to perform under pressure to provide seamless operations and a clean, organized workspace.
